PLEASANT HILL GEMS

Some one said they saw a soldier boy walking north last Sunday. Also heard he was going to visit the dormitory.

The pie supper at this place was a great success, over eighty four dollars was collected from the sale of the pies.

Paul Spearman is quite a frequent visitor at the dormitory.

Mildred Teague was cranking his father's car Sunday and the engine backfired and broke his arm. Mildred is getting along fine.

Many people from the surrounding districts attended the Hartzog sale Tuesday.

Cecil Porter has stopped school. We regret to lose Cecil for he was a fine high school student.

Miss Ellen Bazzill was a visitor at Mr. Kaemper's Sunday.

Spurgeon Swinney returned home Sunday. Mr. Swinney has been sta-

tioned at Camp Travis where he was recently discharged.

The High School and the Scrubs played a rousing game Tuesday. The score was eighteen to twenty in favor of the Scrubs. Look out Scrubs your time is coming yet.

Marie Helox, daughter of Mr. Joseph Helox of P. H., died Friday, February 21st. Marie went to school here and was loved by all. She was a member of Pleasant Hill Baptist Church and a devout christian. She will be missed greatly by all her schoolmates. The funeral was preached at the Baptist Church by L. L. Thurston of Texico. Interment was made in Pleasant Hill Cemetery Saturday.

Who was that soldier boy that made a visit at the dormitory Sunday?

A. J. Morman threshed last week.

OJZARCO.

RICH ON OIL

Will you be any happier when you get rich on that oil stock you have bought if you can't get a choice building site for a home, but have to take

one on a back street. Reagan Land & Cattle Co. have some in Liebelt that you will like, but they are going fast. don't think next week will do as well—it wont.

POLL TAX NOTICE

The State law requires that all able-bodied male persons of the age of twenty-one years or over shall pay a poll tax of one dollar per year for school purposes.

This tax is now due and can be paid at W. H. Fincher's Grocery store—first door north of the post office.

W. H. TAYLOR,
Clerk School Board.

In handling confinement cases an Osteopath uses antiseptics and anesthetics and any other means that is found necessary. Dr. H. R. Gibson.

THE STORE THAT STAYS

Mucklestone Oil COMPANY

Capital Stock \$150,000.00
\$5.00 Per Share

MERIT OF HOLDINGS

The holdings of the Mucklestone Oil Company consist of about 195 acres in the following fields of North Central Texas: 7½ acres about one mile west of Burkburnett. There is at present time producing wells on the same section, adjoining blocks only a short distance from the Mucklestone Oil Company's holdings. These are the Humble well and Hammond Art well, while a little further to the East in the adjoining section are located some of the biggest producers in the entire field. And in the adjoining section to the West is the Mason's Big Three well. The real merit of this ground can best be realized by those unacquainted with this field, when we state this 7½ acres cost \$3,000 per acre, and is now worth \$10,000 per acre.

Thirty acres in the Ranger field situated between the holdings of the Magnolia Oil Company, immediately adjoining on one side, and the Cosden Oil Company, only separated by a narrow strip to prevent it from adjoining on the other. Pipe line now within one-half mile. Prairie Oil & Gas Company (Standard) drilling about three-quarters of a mile distant. Fincher well producing about 2,000 barrels per day just South.

Twelve and one-half acres Southeast of the Duke and Knowles wells. This piece of property is believed by our Geologist to be as good, or better, prospect for as large, or larger production than the Knowles well, said to be producing about 6,000 barrels per day.

One Hundred and Forty-Five acres in six parcels, ranging in size from 10 to 30 acres each, checker-boarding three of the most active producing and drilling fields in Comanche and Erath County, Texas, which will be easily realized by studying map.

These Holdings are situated close to the following wells and companies: The Goss, Downing, Edna Hill and Davis wells. The Roberts, Stroud, Stasey, Burton-Griffith, Laney, Pen-Tex, etc., etc., now drilling. Present production and drilling assure these properties of a big rise in valuation in the near future, having already greatly increased in value since their purchase by the Company.

NO PROMOTION STOCK

Not a share of stock has been given away in promotion, the Company must produce oil and pay every stockholder equally in proportion to their stock holdings before the promoters can share in any profits.

COST OF HOLDING

The holdings of the Mucklestone Oil Company, all of which were carefully bought by men familiar with the fields, cost \$67,500; they are already worth much more than double this amount, being valued today at more than the total capitalization.

DRILLING FUND

The average cost of drilling in the Burkburnett Field is about \$16,000; for this purpose the Mucklestone Oil Company will set aside \$25,000 and \$15,000 as a reserve drilling fund to meet any unforeseen conditions which might arise. A total of \$40,000 for drilling purpose, enough to drill two wells.

The management of the Company is in charge of prominent men and will be conservatively managed. In offering you stock in the Mucklestone Oil Co. at \$5.00 per share we believe we are offering the investing public the best, the squarest, fairest and safest oil stock that has been placed on the market in this section, and we further believe a comparatively small investment in this stock now will provide for the investor during the balance of his or her life when the development of the companies holdings are completed. If you desire some of this stock you should act promptly by seeing.

PHONE 344 if you wish and a representative will call and talk to you.

SERVICE MEN ENTERTAINED

From La Scaulpha, the Clovis High School Monthly)

The returned soldiers and sailors of Clovis were entertained in the High School building February 19th. During the early part of the evening a program was rendered. This consisted of music by the High School quartette; songs and brief talks by several of the soldiers and sailors; an account by Dr. Fred Dillon, of the proposed work of the Service Men's Club; an address by Judge Bratton; a demonstration, by Miss Skoog and Dr. A. L. Dillon, of the Kaiser sawing wood; and a discussion, by a Y. M. C. A. representative, of certain necessary reconstruction work. After the program the guests of honor and their friends adjourned to the gymnasium where refreshments were served and opportunity was given for a social meeting.

DUST PROOF HOUSES

Are the kind that makes the wives really enjoy a sand storm—they know their neighbors are catching it while they are not.

The only way to make them dust proof is to have the plaster come flush with all door and window frames before putting the facings on and plaster to the floor before base boards are put on—they seal all window joints and under north window sills, both inside and out with putty. This is the way Reagan Land & Cattle Co. builds them.
